

# Baladi Dog Rescue of Ontario

## Application Form:

Dogs and puppies with no major health concerns will fall under our standard adoption fee of a minimum donation of \$1500 (unless otherwise specified). This is the amount to get a dog from a foster home or directly from Toronto Pearson airport or from a foster home in London.

If any additional travel is required, costs are subject to change. The adopter will be responsible for transportation costs. Adoption fees must be paid by cash or e-transfer either prior to adoption or at the time the dog is picked up.

The cost to provide veterinary care, housing (overseas) and send 1 dog to Canada is between \$2000 and \$3000 CDN. If you are able to donate more, it would be greatly appreciated as less fundraising has to be done. Also, please share our posts and website so we can keep our adoption fees as low as possible!

## **Application Procedure:**

### **Before filling out this application, please note:**

\*We can not guarantee breed, age, health or temperament. These dogs come in as strays and we can only rely on information we are given.

\*We also can not and will not be held liable in any way, for any animal, or its action, once we have placed the animal in your care.

\*Please understand that this dog has lived the first portion of their life on the street fending for themselves and will take time to adjust to living inside a home.

Please read the following information carefully:

- Fill out the application in its entirety.
- This process helps us determine the best possible animal for you/your family and lifestyle.
- We will guide you to a different dog if we feel that you are not a suitable home for the particular dog applied for (each dog has different needs).
- Please know that someone from our team will be calling references (personal as well as veterinary) and be giving you a home visit before adoptions are approved.
- Applications will be reviewed and replied to (if applicable) as quickly as possible. We will take applications until we

have found the best fit for the dog.

- Each dog will be flying in from overseas, so please note that the full adoption process could take 1-3 months to complete.

- The dogs will arrive with vaccinations, microchips, titre test, some disease testing as well as alteration (spayed or neutered).

- We reserve the right to refuse an adoption for any reason. We will not adopt if you give false information.
